

HALO House

Letter from a family who received donations

May 17, 2008

To Whom It May Concern:

My family recently took in three abandoned children we are in the process of trying to adopt. Having a household grow to seven while simultaneously being laid off from work left us to the point of experiencing difficulty in making ends meet. We would like to send out our heartfelt thanks to the HALO Society for their enormous generosity and compassion. We were blessed with more items for our children and family than we could have ever hoped for. Not only did they provide us with items for the 3 new children, they also supplied us with items for our teenagers. We send a special thank you to Amy James, Bridget Shelton, and Dave Anderson who went above and beyond to help us. We feel so very blessed to have been put in touch with HALO and thank you all for all you do to help the community.

Many thanks and God bless,
Allen & Rebecca Head
